Letter to members

From the chair of the board · 14 March 2026

Membership grew nine per cent this year to 4,180 households, with growth in every district. Subscription income now makes up two thirds of the total, up from half two years ago, and renewal rates held above ninety per cent for the fourth consecutive year.

Operating costs fell by 180 basis points as the cost of delivery dropped and headcount grew more slowly than income. We expect this trend to continue into the coming year as the investments of the last two years begin to pay back.

We enter the year with a record order book and a balance sheet that lets us keep investing through the cycle. The board thanks every member for their patience during the move to the new warehouse.

Segment	Income	Growth	Margin
Subscriptions	$2.8m	+14%	31%
Services	$1.4m	+6%	18%
Total	$4.2m	+11%	27%

With thanks,

Maya Okafor
Chair of the board
